VIDEO SURVEILLANCE PROJECT CONSULTING & MAPPING

Starting a video surveillance project or RFP can be time consuming and very expensive. Let us save you both time and money and build a customized video surveillance map. The information collected can then be used to help you build an RFP for your project.

SAVES LIVES, INC.

IDENTIFYING VULNERABILITIES

Maps include subject matter expert input on best practices, sample policies and the lowest number of recommended cameras to lower both cost and strain on current infrastructure.

VIDEO SURVEILLANCE

These interactive maps give you real views of camera angles, on your site, that haven't been purchased or installed yet.

PROVEN RESULTS

Our clients save an average of 32% of the camera and installation costs by using this resource.
