

School Lockdown Training 2.0

3 or 4-hour, Advanced School Lockdown training 2.0 for up to 125 school employees. The training curriculum will be designed based on the layout of the property as well as the design of the building or area, the employee's work and prior experience in our basic site-specific lockdown course. The training will include four subject matter expert instructors who will provide specific instruction regarding workplace violence prevention and mitigation. The attendees will learn both evacuation and lockdown best practices and conduct walk through scenarios for various emergency situations. Attendees will learn vital skills such as situational awareness, best practices for response options to workplace violence as well as physical response options using a fire extinguisher as an improvised weapon. The conclusion of the training event includes a timed, live drill, to help attendees self-evaluate their responses to a mock emergency

KSL, Inc. is responsible for providing all equipment including fire extinguishers, portable radios, signs in English and Spanish, mobile hand sanitizing stations and any other necessary equipment. This site-specific training program is recognized Statewide and is being utilized by State, County and municipal agencies and departments. This program is also utilized by hundreds of California School Districts, Colleges, public and private organizations, and churches. KSL is responsible for providing all necessary equipment for the event including fire extinguishers, training aides, equipment, and staff

At the end of each event all participants will be given an electronic course survey to complete. The surveys will be compiled into a single after-action report. The report will be provided to the client within 30 days following the training event. The after-action report includes a detailed course evaluation from each attendee and site-specific information and recommendations for each location.

Included

- 3 or 4-Hour Advanced School Lockdown training 2.0. Instructors provide lectures, discussion, and role-playing exercises to guide participants in preventing and responding to school violence.
- 4 to 5-member instructor team will develop and provide a custom training outline with multiple site-specific scenario stations.

Pricing

- **\$7,995**
for groups up to 125 per site
- **\$4,995**
for groups up to 40 attendees

Sample Training Outline

- **Introduction & Objectives:** Provides an overview of comprehensive safety strategies to manage and respond to active threats on school campuses. This segment introduces nationally recognized emergency principles—such as Run, Hide, Fight—and outlines key response recommendations for both during and after a school crisis.
- **Situational Awareness:** Equips participants with the ability to recognize threats early using the OODA loop (Observe, Orient, Decide, Act) model. Attendees will assess their surroundings, identify available options, and apply proactive thinking in rapidly evolving situations.
- **Classroom/Office Lockdown Review:** Explains best practices for securing learning or office spaces during an intruder or active threat incident. Instructors guide participants through real-world lockdown techniques and reinforce critical decision-making under pressure.
- **Improvised Weapons for Defense:** Introduces the use of common classroom tools, like fire extinguishers, as improvised defensive options. Participants learn practical strategies for active resistance and personal survival when no other protective options are available.
- **Stop the Bleed:** Instructors demonstrate trauma response procedures to control severe bleeding in mass casualty situations. Participants practice essential techniques to apply immediate aid and save lives.
- **Evacuation: Outside to Inside:** Covers safe, coordinated movement of students and staff from outdoor areas into secure indoor environments. Instructors model effective communication and movement procedures during high-stress scenarios.
- **Evacuation: Inside to Outside:** Provides guidance on safely evacuating from classrooms or buildings to outdoor areas during emergencies. Participants will review appropriate timing, paths of egress, and group movement coordination strategies.
- **Q&A + Distribution of Materials:** Concludes the course with an open Q&A session for site-specific concerns and clarifications. Participants will receive printed and digital resources to support implementation of learned strategies and continued preparedness.
