

Risk Assessment Report & Secret Shopper Footage

We evaluate safety gaps with confidential assessments, secret shopper testing, and compliance analysis to provide actionable, cost-effective recommendations.

Be aware of your organization's vulnerabilities.

Our Risk Assessments will identify security gaps and provide practical, cost-effective solutions to mitigate risks.

We've helped hundreds of school districts, government agencies, healthcare organizations, and Fortune 500 companies strengthen their security—and many school districts and nonprofits have successfully used our reports to apply for and receive grant funding to enhance safety and security.

Highlights

- We assess workplace violence, burglary, theft, cyber security threats, and overall policy effectiveness.
- We compare policies with real-world interactions through secret shopper insights, while ensuring compliance with workplace safety regulations like Labor Code 6401.9 and SB 10.
- We provide strategic recommendations—including low-cost and no-cost options—to enhance security and emergency preparedness.
- All assessments kept completely confidential in accordance with Government Code regulations for both public and private organizations.
