

Be aware of your organization's vulnerabilities.

COMPREHENSIVE RISK ASSESSMENTS

Our Risk Assessments will identify security gaps and provide practical, cost-effective solutions to mitigate risks.

Crime Prevention Through Environmental Design (CPTED)

- Public Access Control
- Natural + Enhanced Surveillance
- Defensible Space
- Layered Methodology to Crime Prevention
- Visitor Management

Workplace Safety & Security Evaluations

We assess workplace violence, burglary, theft, cyber security threats, and overall policy effectiveness.

Actionable Insights & Support

We compare policies with real-world interactions through **secret shopper** insights, while ensuring compliance with workplace safety regulations like Labor Code 6401.9 and SB 10.

Practical, Confidential, Cost-Effective Solutions

We provide strategic recommendations—including low-cost and no-cost options—to enhance security and emergency preparedness, with all assessments kept completely confidential in accordance with Government Code regulations for both public and private organizations.

Trusted by Top Organizations

We've helped hundreds of school districts, government agencies, healthcare organizations, and Fortune 500 companies strengthen their security—and many school districts and nonprofits have successfully used our reports to apply for and receive grant funding to enhance safety and security.

Secure Your Customized Risk Assessment Today!
